

Solar Charging Kits

GP-RV 80 / 95 / 155

- Maintenance free designed to provide decades of uninterrupted power
- 25 year solar panel warranty
- Easy to install, flush mountable designed regulator
- Expandible (allows for additional solar with the same regulator)

GP-RV-95 Certifications:

Why choose a Go Power! System

A Go Power!™ Solar Charging Kit keeps your batteries charged and healthy. Full batteries give you the freedom to run lights, furnaces, fans and more DC appliances without the worry of running out of power.

The rugged durability of our solar panels guarantee you'll generate solar power everywhere you go. All the components you need to set up your solar charging system are included in every GoPower!™ Solar Charging Kit.

Solar panels are mounted securely, and without worry of leaks, with the provided mounting hardware.

Kits come with our own premium Go Power!™ regulator. Our **GP-PWM digital regulator** monitor your system to prevent over charging your batteries. As well, it delivers vital information where and when you need it.

Go Power! Regulators:

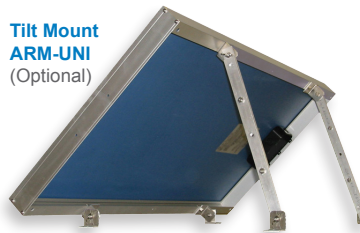

- Battery voltage digital display
- Digital display of power output from the solar panel (amps)

Check out our other Go Power!™ products:

- Universal Arm Tilt Mounts
- Inverters and Chargers
- DURALites and SUNfilm solar chargers

Tilt Mount
ARM-UNI
(Optional)

Tilt Mount

ARM-UNI Adjustable Mount

Optimize solar charging by adjusting solar panel to maximize exposure to the sun.

- Easy and quick to install
- ideal for boats, trucks and RVs
- Tilting can increase performance up to 40%
