

AquaCharge™

CORDLESS WATER PUMP

The AquaCharge™ is a portable, rechargeable, submersible pump for use in numerous applications both on board and ashore.

The pump kit includes the portable pump with threaded discharge, a charging station, a battery and an 8' garden hose. The charging station can be connected to either a 110V household outlet or your boat's 12V electrical system. Additional batteries are sold separately. The powerful AquaCharge™ is capable of pumping 50 gallons in less than 10 minutes. No boat or home should be without one!

AquaCharge™ Features and Benefits Include

- Backed by the Rule brand of DC pumps, a brand enjoying over 45 years of operational excellence
- Harsh environment DC motor technology, proven with over 15 million units in use
- Robust and innovative pump technology, proven in over 7 million bilge pumps
- Pumps fresh and salt water, providing dual use with a single product
- Fully submersible, ensuring durable operation in harsh environments
- Ergonomic ON/OFF control knob, allowing simplified rotational operation
- User removable filter, allowing quick and efficient cleaning
- Industry standard fixtures, accommodating the included 8' hose or any standard garden hose
- Industry standard NiMH battery, incorporating dependable charging technology
- Pumps up to 200 gallons on a single charge, ensuring adequate operational time for your needs
