

NEW RANGE

ZODIAC™ PRO

Don't just choose a boat,
choose your boat

Pro Classic 750

Pro Classic 550

Pro Touring 550

Pro Racing 550

The sea always brings out the personality of a sailor. We each have our own sailing style; we are each in search of our own thrills and the pleasure of being out on the water.

By completely remodelling its **PRO** range, Zodiac™ offers a “tailor-made” option, allowing you to fully customize your boat.

Available in three model ranges, **CLASSIC**, **RACING** and **TOURING**, the **Zodiac™ PRO** range offers unlimited choice - your choice. You design your own boat by selecting the colour of its hull and buoyancy tube, the shape of the console, the bolster model and the range of equipment best suited to your navigating style.

The new **Zodiac™ PRO** models are changing the rules of the game - mass-produced boats are a thing of the past! You're the boss.

Find out more about the three new model ranges:

- The **PRO CLASSIC** Models: This legendary range is treating itself to a new, more dynamic look. It comes with three new buoyancy tubes in red (Strongan™ Duotex™ PVC), black (Strongan™ Duotex™ PVC) or grey (Hypalon™- Neoprene™) - available on the 4.20 metre to 7.50 metre models - and can be fitted with an endless range of accessories.
- The **PRO RACING** Models: This boat has a “high performance” look and comes with a Hypalon™- Neoprene™ buoyancy tube in shades of grey, black and red, available in two models - the 5 metre and 5.50 metre models. It is, of course, ideal for those of you who enjoy water sports.
- The **PRO TOURING** Models: A range that comes in Strongan™ Duotex™ PVC fabric and is fresh and vibrant making it comfortable and highly inviting for unforgettable outings with family or friends. It is available in the 5 metre and 5.50 metre models in blue or black and light grey.

Indicated measurements may vary by +/- 3%, or +/- 5% for weight and speed measurements. (1) Maximum permitted load is calculated using ISO standards. Caution is advised when operating fully laden boats. (2) Recommended power is based on optimal use of the boat's abilities under average load. Depending on use, choose either maximum (waterskiing) or minimum power (fishing, cruising). (3) The manufacturer's plaque specifies maximum permitted power. The power of your boat must not exceed this under any circumstances. (4) Maximum permitted weight: dry weight, according to motor manufacturers' catalogue specifications. (5) Maximum speeds are intended as a guide only; they were measured in ideal conditions by professional pilots with one person aboard. They may vary according to make of motor, boat load, propeller type and water conditions. (6) Models in this catalogue are sometimes shown with optional accessories. Please check standard equipment supplied with each model and see your distributor for any additional equipment. The availability of certain models, as well as certain equipment details may vary from country to country (e.g. USA, Canada). The boats photographed in this catalogue may differ from the actual models. Zodiac™ continually strives to improve the quality of its products and as such reserves the right to modify or delete any model presented in this catalogue without prior notice. Zodiac™ recommends that a life jacket is worn at all times; it is your own responsibility to check the legal obligations on your navigation zone.
