

Marine Electronics Mounting System

FOR POWER & SAIL

Mounts for Radar Domes, Open Arrays, Satellite Domes, Cameras, Searchlights, Antennas and more.

R-6-11

EASY THREE STEP ORDERING

Select Mount Style and Height

Select REQUIRED Mounting Plate

Select OPTIONAL Light Arm/Wing/Accessories

Edson's all-new Vision Series Electronics Mounting System is a revolutionary design that provides the simplest, most attractive solution to your electronics mounting requirements.

- All-new sleek, modern design
- First all modular system extremely versatile
- Easy to select and install for any radar, dome, light or camera combination
- Easy to add accessories Light Arms, Mounting Wings, Extensions
- Upgradable for future additions and modifications
- Powder Coated Marine-Grade Aluminum Construction

Select Mount Style and Height

Aft Angled Radar or Satellite Dome Mounts

- 6", 12", 18", 24" and 36" tall
- Aft Raked 30 degrees
- 7" diameter base on #6801, #6802 10.5"W x 10"L base on #6803, #6804, #6805

Raymai

6" MountShown with mounting plates and optional Light Arm and Anchor Light.

Aft Angled Heavy Duty Open Array Mounts

- 6"and 12" tall
- Aft Raked 30 degrees
- 7" diameter base on #6801 10.5"W x 10"L base on #6812

6" - #6801

12" - #6812

12" Heavy Duty Mount Shown with mounting plates and optional Antenna Mounting Wing, Antenna Extension, Light Arm, Anchor Light and GPS Mount.

Vertical Radar, Satellite Dome Light or Camera Mounts

- 6", 12", and 18"
- Vertical
- Ideal for Radomes, Night Vision Camera and Spotlights
- 7" diameter base on #6873 and #6874. 10.5"W x 10"L base on #6875.

#6873 - 6" Vertical Mounts
Shown with electronic-specific mounting plates

Dual Mounts

- For Radar Dome/Sat Dome or 4' Open Array/Sat Dome
- 18" (sat dome) and 24" (open array)
- Aft Raked 30 degrees
- Two Mounting Plates Required (Open Array should only be mounted on lower arm)
- 10.5"W x 10"L base

18" - #6820 for Radar Dome/Sat Dome

24" - #6825 for 4' Open Array/Sat Dome

Dual MountShown with mounting plates and Light Arm and Anchor Light.

Raymarin

Triple Mounts

- First production Triple Mount
- For Radar Dome/Sat Dome or 4' Open Array/Sat Dome + Spotlights, Cameras or Night Vision
- 36" tall
- Aft Raked 30 degrees
- Three Mounting Plates Required (Open Array should only be mounted on lower arm)
- 10.5"W x 10"L base

#6830 for Radar Dome/Sat Dome

#6835 for 4' Open Array/Sat Dome

First Production Triple Mount! Shown with mounting plates and optional Antenna Mounting Wing, Antenna Extension, Light Arm, Anchor Light and GPS Mount.

#6746

#6747

Mast Mount

- For Sailboats and Trawlers
- Swivel Feet fit most masts
- Rivets Included

Pole Mounts

- For Sailboats or Trawlers
- Uses same Mounting Plates and Accessories as all Vision Mounts
- See edsonmarine.com for additional support options.

Basic Pole - #6746

- Anodized Aluminum pole
- 90" tall x 2-3/8" dia.
- 1" Rail Support Bracket
- Deck Mount Base Flange

Deluxe Fixed Pole - #6747

- White powder coated aluminum pole
- 144" tall x 3-1/2" dia.
- 55" Fiberglass thru-deck mounting tube

YOUR EDSON DEALER:

Additional Accessories

STAINLESS ANTENNA STANDOFFS

These strong and attractive standoffs will limit the amount of wear and tear on your antennas while powering through rough seas. Made from investment cast 316 stainless, they will never break like plastic.

Fitting all antennas up to 1.5" in diameter, they are available in three sizes, virtually eliminating the need to shim the standoff or antenna base. The clasp is held closed with a quick release pin allowing for quick antenna takedown to go under bridges or for trailering. Each clasp is padded providing a secure, rattle free closure. Order by the desired stand-off distance (to center of antenna).

3" Stainless Antenna Standoff	#535-3-125
5" Stainless Antenna Standoff	#535-5-125
7" Stainless Antenna Standoff	#535-7-125

INSTRUMENT DISPLAY HOUSINGS

Edson has designed Custom Housings for Radar and Chartplotter Display as well as a variety of autopilot, depth and other instruments. They add a ship shape appearance, protect the back of the displays, and provide a more robust mount. They allow Pedestal, Overhead, Deck/Bulkhead, Console, and Pod Arm Mounting Options.

Visit edsonmarine.com for Edson's full Instrument Housing Selection

FLUSH MOUNT BRACKETS

Edson "Flushmount Kits" ease dash installations of VHF radios & larger display monitors. Stainless steel construction.

Flush Mount Kit for VHF/Small Displays #6765 Flush Mount Kit for Large Displays #6770

GPS ANTENNA RAIL MOUNTS

Edson's Stainless GPS Antenna Rail Mount Arm features a unique design that keeps your wiring completely hidden inside the mount and railing. The two-piece design clamps to any 1", 1-1/8" or 1-1/4" horizontal railing. Male 1"-14 threads accept most common GPS or VHF antennas. Cast of solid 316 stainless with rubber bushings.

Stainless GPS Antenna Rail Mount
