**MAS Penetrating Epoxy Sealer**

A low-viscosity epoxy formulation that penetrates deep into rotten or damaged wood, restoring structure and providing a solid base for additional repairs. The penetrating power of this epoxy resin system is superior to most competing products on the market, but can be dramatically improved by diluting it with common paint solvents such as denatured alcohol, lacquer thinner or acetone. The mixed epoxy and hardener may be diluted with as much as an equal volume of solvent. This simple solution doubles the penetrating power of the MAS Penetrating Epoxy Sealer.

**MAS Penetrating Epoxy System** is particularly valuable when damage is limited to a portion of an otherwise sound component; or in cases where the damaged piece would be impossible or too costly to replace.

**Application Suggestions:**
- Window Frames • Door Frames
- Window Sills • Deck Repair

**Mix:** Pour desired amount of resin (Part A) into bottle. Pour Hardener (Part B) to the recommended amount.

**Apply:** Brush onto affected area to distribute while wood penetrating epoxy goes to work.

**Finish:** Epoxy will cure in 12 hours at 75°.

**Double Braid Polyethylene Line**

- **Double Braid Polyester line** offers the low stretch and high strength to weight qualities required for modern sailing craft. From dinghy to four-mast, Buccaneer has your rigging needs covered.
- **Double Braid Polyethylene Line** gives you low stretch and high strength to weight qualities. This line is available in single, double and triple version. This is the best solution for modern sailing craft.

**Antal 360° Swiveling Cleat**

- The aluminium base swivels through 360° on single races of Torlon ball bearings
- The system is fitted with 2 x 28 mm sheaves for lines up to 10 mm
- Fixing: 3 x 5 mm screws
- Weight: 0.23 kg
- SWL on the cam cleat: 150 kg

**Antal Block and Servo Cleat**

- The aluminium base swivels through 360° on double races of Torlon ball bearings
- The system is completed with a 60 mm block for lines up to 12 mm
- Fixing: 3 x Ø6 mm screws
- Weight: 0.82 kg
- SWL on the cam cleat: 200 kg

**Antal Cam V-Grip Rope Clutches**

For line diameters from 8 to 16 mm. Aisi 316 stainless steel mechanism and lever, bronze “V” shaped cam and black anodized aluminum structure.

3 models are available for 8-12, 10-14, and 12-16 mm lines in single, double and triple version. This is the best solution when minimum sizes are required; it is only 6.8 cm high.

**Double Braid Traveller Line Kit**

- **Double Braid Traveller Line Kit** offers low stretch and high strength to weight qualities. This line is available in single, double and triple version. This is the best solution for modern sailing craft.

**NEW! Imtra “Mini” G4 LED Replacement Bulb, Back Pin, Cool**

This compact 9-LED SMD design fits small to medium sized down lights with back-pin (vertical) mounted G4 sockets. This LED bulb’s small diameter also allows for installation in reading lights & chart lights with narrow conical reflectors. The extra-long pins may be snipped down to desired length. Cool white is commonly used for exterior applications and utility areas. Its nine surface mount device (SMD) LEDs and proprietary PWM Constant-Current chipset give it amazing performance for its form-factor.

**Features & Benefits:**
- Small diameter board for narrow spaces
- High output SMD LEDs
- Constant-current drive topology
- Over-voltage protection
- No radiated heat
- Thermally efficient design

**Fits Socket G4**

- **Fits Socket G4**
- **Ceiling Fixtures, Spots**
- **Dimensions (Dia. x H - Incl. pins):** 0.90 in. (22.9mm) x 1.04 in. (26.4mm)
- **Input Voltage:** 10-30VDC
- **Current Draw:** 120mA/12V 60mA/24V
- **LED Emitting Color:** Cool White
- **LED Type/Quantity:** 9 x SMD
- **Beam Angle (FWHM):** 120 deg.
- **Luminous Flux:** 120 lms
- **Typical Applications:** Ceiling Fixtures, Spots
- **Fits Socket:** G4

**NEW! Flexdel Armor Antifouling Paint**

- **An advanced copper-free bottom paint that provides excellent antifouling protection**
- **Paint Type:** Solvent-based
- **Armor is a multi-season bottom paint and is also great for frequently trailered boats**
- **Compatible over most existing bottom paints except those containing Teflon (e.g. VC-17)**
- **Active Ingredients:** Econea and Zinc Pyrithione at 5.6% and 4.0% by weight, respectively
- **The result is a bottom paint that is better for both boat owners and the environment**
- **Dual biocide action repels barnacles & other growth**
- **Fast drying**
- **Great value offering outstanding protection**
- **U.S. EPA approved**
- **Coverage:** ~400 square feet per gal, ~100 square feet per qt
- **Number of Coats:** minimum of 2 coats with additional coats for multi-season protection
- **Dry-To-Recoat:** 4 hours • **Dry-To-Launch:** Min: 8-12 hours; Max: not critical

Lumitec CapreraLT LED Flood Light
• Since 2008 Lumitec’s Capri has established the benchmark for quality, performance, and value in LED flood replacements for 55W halogens
• With more than 1,000 integrating sphere tested lumens, the new CapreraLT builds on that legacy and reaffirms market leadership
• Developed, designed, and manufactured entirely at our R&D and production facilities in Florida, USA, the CapreraLT delivers exceptional reliability and class-leading performance
• As with all Lumitec products, this light has been rigorously tested for shock and vibration, water ingress, impact, weatherability, electromagnetic radiation and susceptibility, and overall durability
• In short, the CapreraLT delivers exceptional value in extreme environment LED flood lights

Specifications:
• Light Colors: Blue and White, Dimmable
• Compatible with most PWM LED dimmers
• Voltage: 10 - 30 Volts DC
• 12 Volt DC Amps: 1.3 Amps
• 24 Volt DC Amps: 600 mA
• Correlated Color Temperature: 5000
• Color Rendering Index: 70+
• Rated Watts: 12
• Lumens (White): 1000
• IP67 Compliant Certified Ignition Protected
• Dimensions: 1.75”W x 4.94”L x 1.75”D

Go Power! GP-ECO Series Solar System
POWERFUL AND ECONOMICAL BATTERY CHARGING KITS
• The GoPower!™ Eco Series Solar Kits are the economical solar solution: keeping your batteries charged and healthy
• They come with everything needed to install on your RV rooftop
• The 20 watt system is designed to trickle charge batteries
• Affordable solution that will extend the life of your batteries
• Includes 25’set of MC4 solar cables
• High-efficiency solar modules with tempered glass to withstand hail or light debris
• Includes 10 watt / 0.57 amp Controller with 1 year warranty
• Digital pulse width modulated (PWM) solar controller regulates the battery charging system and prevents over-charging and damage to the battery
• Solar Panel Warranty: 10 Years on output power

Raritan Smart Macerator Control
• Prevents dry run and electrical overload
• Can be reset by turning off and on switch
• Power need not be turned off (control will jog macerator pump for few milliseconds, every seven days, to prevent binding of impeller if power is not turned off to the control)
• Control will shut down pump if pump draws more than 20 amps

Signal Mate LED Combination Masthead (Steaming) with Red Deck Light
• Power: 9-30 Volts DC, Draw: 0.300 A at 12 VDC
• Visibility: 225°, 3 NM visibility for power and sailboats up to 20 meters (65’)
• Dimensions: 7.75”H x 2” Diameter
• Includes: 2-1/2 UV Outdoor 20 AWG Wire and Mounting Bracket

Signal Mate LED Combination Masthead (Steaming) with White Deck Light
• Signal Mate 3NMMHDKW LED Combination Masthead (Steaming) Navigation Light with White Deck light
• LED Masthead (Steaming) Light
• Rugged and waterproof
• LED 225-degree viewable
• 3 NM visibility for power and sailboats up to 20 meters (65’)
• Deck light with (3) White High Brightness LEDs with Khatod 10° lens
• Bracket included
• Power: 9-30 VDC, Draw: 0.300 A at 12 VDC
• Visibility: 225°, 3 NM, Dimensions: 7.75” H x 2” Diameter
• Includes: 2-1/2 Foot UV Outdoor 20 AWG Wire and Mounting Bracket

**Redrum Hull Liner**

- Marine Hull Liner is a carpet-like material and is made out of needle punch polypropylene
- It is extremely easy to cut, fit, and mold to the desired shape or size
- Designed to resist mold, mildew, stains, and soiling
- Hull liner fabric is easy to clean and will not fray or unravel
- Excellent Color retention
- Made to withstand the marine environment
- Cut to fit any space
- Will not fray or unravel
- Width: 72"
- Material: 100% Polypropylene
- Weight: 15 ounces per sq yd

**Flir Ocean Scout 240 & 320 NTSC Handheld Thermal Marine Scope**

The Flir Ocean Scout handheld thermal imaging camera with InstAlert™ gives every mariner the power to see at night like never before. Flir Thermal Cameras make pictures from heat, not light, helping you see land marks, bridge abutments, and other vessels clearly in all light conditions from daylight to complete darkness. Thermal night vision improves your ability to see rocks, bushes, floating debris, and even helps you find people in the water, vital when just a few minutes makes all the difference in the matter of survival. See more – and see farther – than every other night vision technology around.

**Features:**
- See clearly in total darkness - unlike other night vision systems, First Mate MS-Series cameras require no light at all
- See logs, rocks, land, and other hazards that radar can miss
- Boat with confidence at night knowing that you can see harbor entrances and waterways in total darkness
- Rugged design - Built to withstand the demands of outdoor use
- Toggle the image display between White Hot, Black Hot, and the powerful (No Suggestions); detection palettes for excellent image detail in different environments
- Vox Microbolometer sensor for excellent image quality and clarity
- 240 - 240 x 180, 13 mm lens with 24° field of view
- 320 - 320 x 240, 19 mm lens with 24° field of view
- Palm-Sized Portability and Light Weight - Only 12 Ounces
- Embedded LED Task light
- Rechargeable Internal Lithium-ion battery - Provides up to 5 hours of camera operation on a single charge

**Package Includes:**
- Lens cover, USB cable, wrist strap, operator’s manual, soft carrying pouch
- Warranty: 2 Year

**Flir Ocean Scout 240 & 320 NTSC Handheld Thermal Marine Scope**

**New!**

**Sta-Bil 360 Fuel Treatment**

- Prevents corrosion above and below the fuel line – where no other additive can!
- Ultimate treatment and protection against Ethanol blended fuels
- Cleans fuel system to improve performance
- Stabilizes fuel up to 12 months
- Use at every fill up
- Improves power and fuel efficiency

For fuel treatment use in all gasoline powered equipment needing that ‘extra’ protection:
- Boats
- Pontoons
- Personal Watercraft

Provides the ultimate corrosion protection for engines used in high moisture environments. It releases a corrosion-preventing vapor that coats all the metal parts of the fuel system to protect both above and below the fuel line. Also helps remove water from fuel, cleans the fuel system for improved power and performance, and will stabilize fuel up to 12 months during storage.

Perfect for boats, jet skis, or any gasoline engine used in high moisture environments.

For in-season use: 1 oz. (30mL) treats up to 10 gallons (38L) of fuel. For storage: Use 1 oz. (30mL) to 5 gallons (19L), Recommended for use AT EVERY FILL UP to ensure continuous protection against the effects of Ethanol blended fuels. Safe for use in all 2 and 4 cycle gasoline engines. Product does not contain alcohol.

**The Complete Sailing Manual**

From learning the basics of sailing, to mastering navigation and boat care, The Complete Sailing Manual is the most essential reference for sailing instructors and students.

Revised and updated to include all of the latest developments in equipment and safety, and to reflect the current rules, regulations, and best practices, The Complete Sailing Manual is the perfect book for anyone interested in sailing:
- Publisher: DK Publishing, Inc.
- Publication date: 12/19/2011
- Pages: 448

**Velox Plus Prop Paint Kit**

- Applications: Antifouling paint and primer for props and underwater running gear
- Kit includes primer, paint, brushes, and more
- Container: 0.25 liter of Metal Primer
- 0.50 liter of Velox Plus
- Coverage per coat: Up to 100 square feet

**Please specify paint color:** Black or White
Raymarine CP470 CHIRP Sonar Module

Engineered for serious anglers, the CP470 and CP570 Professional CHIRP™ sonar modules bring best-in-class target separation and high resolution CHIRP sonar imagery to Raymarine multifunction displays. Using a wide spectrum of frequencies and greater sensitivity, these advanced CHIRP transceivers can see through dense schools of baitfish, identify thermoclines and simultaneously target desired game fish.

Rated for offshore use and rough conditions, they intelligently filter out unwanted noise while producing high resolution fish targets and reliable bottom tracking.

Features:

• Serious Offshore Sonar: Superior target definition and enhanced sensitivity using Raymarine’s exclusive wide spectrum CHIRP sonar technology
  – Target fish, identify bait, and track the sea floor down to 10,000 ft. (3,000 m) with two adjustable CHIRP sonar channels

• Stunning Detail and Clarity: With 10 times the resolution of ordinary sonars, the CP470/CP570 deliver sharper, more defined fish targets and automatically filter out unwanted noise so you never miss the action below
  – TruZoom™ magnification mode reveals extra target detail without any loss of resolution

• Easy to Customize: Choose optional low, medium and high CHIRP frequency transducers in standard or wide-beam to match your fishing preferences
  – Automatically recognizes connected transducers and adjust sonar parameters for optimized performance

• View and control each CHIRP channel independently and create your own combination of full or split screen sonar windows on Raymarine’s LightHouse II powered multifunction displays

Specifications:

• Sonar Type: Wide spectrum CHIRP
• Frequency and Channels: Dual CHIRP from 25 to 250kHz
• Depth Range: 10,000 ft. (3,000 m)
• Waterproofing Standard: IPX6 Waterproof
• Compatibility: aSeries / cSeries / eSeries / gS Series
• Nominal Supply Voltage: 12/24 VDC
• Power Consumption: 30.6 W (maximum)
• Connections: Power connection / Network connection (RayNet connector) 10/100 Mb/s / Transducer connection
• Transducer Sold Separately, Power: 12 Volt DC / 24 Volt DC

The New Dan Bag
Dan Buoy Holder

The “Dan Bag” holder, for the SOS Dan Buoy man overboard marker, is manufactured from heavy duty White plastic vinyl fabric. It has a hard backing board built inside the backside that provides full support to the bag and allows it to be affixed to pipe rails or bulkheads with pipe clamps or screws.

• Two pipe / rail clamps are included with each unit
• Provides increased weather and UV protection to the Dan Buoy
• Fold over lid has Velcro on the inside to keep the lid down in windy conditions

Sospenders® 33 Gram Auto/Manual Easy Repack Series
Inflatable Life Jacket • TYPE III

You’ll have the comfortable safety you need and complete freedom to move when you’re wearing our lightweight, universally-sized Sospenders® 33 Gram Auto/Manual Easy Repack Series Inflatable Life Jacket. It’s perfect for boaters, paddlers, anglers and hunters who get distracted by traditional PFDs. A soft, fleece-lined collar wicks moisture off your neck, and zippered pockets keep gear close. Just buckle it over your chest, and if danger is near, either pull the activation cord or wait until you get into the water and a life jacket will inflate within seconds. The US Coast Guard-approved vest has a durable, nylon shell. The vest is also reusable using Rearm Kit #0924 (SKU# 552095). When you’re ready to put it away, the tri-fold design repacks neatly and easily.

• US Coast Guard-approved life jacket
• Tri-fold design repacks neatly and easily
• Durable nylon shell resists rips and tears
• Soft, fleece-lined collar wicks moisture
• Zippered pockets keep gear close
• Low-profile, compact chest design
• Type III performance
• Rearm Kit #0924 SKU# 552095
• Zippered cover for quick and easy access to rearming mechanism
• 33.7 lbs. (150 Newton) of buoyancy
• Universal size, for adults over 80 lbs. (36 kg) and 30 in.-52 in. (76 cm-132 cm) chest size
• Made in China

Taylor Made Super Gard Swirl Inflatable Vinyl Fender

• The Taylor Made SWIRL Inflatable Vinyl Fender is fine looking and performs perfectly for your boat
• Swirl Super Gard™ fenders are in a class of their own, and feature all the same great qualities as Taylor standard line of Super Gard fenders
• Made from the highest quality marine grade vinyl, Super Gard feature a high gloss finish and double molded black ends for extra strength where you need it the most
• Seamless one-piece construction with ribbed sides minimizes roosting
• Molded-in valve ensures easy inflation and long life
• Double molded black ends for added strength
• Valve seats are tightly molded into the fender, not glued
• Rubber football needle valve for easy inflation
• Recommended inflation: 2 PSI
• Made in the USA

Octopus/Intellisteer Steering System

Steering has never been this easy!

- What if you could steer your kicker engine without having to worry about the tiller arm or a bulky connection kit to your main engine? What if you could fish or cruise without having to continuously adjust your course from your main steering? What if you could do all this wirelessly, with no cables to get in the way? Intellisteer boat remote steering offers a full range of products that are easy to install, easy on the wallet and make fishing and boating a whole lot easier and more fun!

Key Features
- Models for control of kicker
- Models for cable and hydraulic steering
- Wireless control module plus handheld pendant - steering in the palm of your hand
- Steer and fish from anywhere on the boat
- Designed for pushbutton control at trolling speeds
- Easy DIY installation - no need for professional installer
- 1 Year limited warranty - purchase with confidence

- Drive connects to kicker
- Electronic Clutch Disengages for Manual Steering
- Rotary Drive System
- Safety Override Technology
- Current 1.25A Typical, 1.5A Max
- Requires steering cable and outboard connection kit

- Replaces Existing Helm
- Electronic Clutch Disengages for Manual Steering
- Rotary Drive System
- Fits Behind Dash
- Type S for straight shaft helms
- Type T for helms with tilt function
- Safety Override Technology
- Current 1.25A Typical, 1.5A Max

- Connects to Intellisteer Wireless & Hydraulic Steering Systems
- Rugged Octopus Hydraulic Pump
- Robust pump that resists external hydraulic pressure
- Current 4-6A Typical, 8A Max
- Suitable for cylinders up to 1500 (320cc)
- Includes hydraulic hoses and fittings

- No need for additional drive units. Intellisteer Wireless Controller is designed to be wired between a Control Panel and Autopilot Drive
- When the Intellisteer Wireless Controller is activated it will disconnect from the autopilot and provide wireless pg steering control from anywhere on the boat
- When the Intellisteer Wireless Controller is turned off, the Autopilot will function as before

ACR Aurora Handheld Orange Smoke Signal
During its 1-minute burn time, the Aurora Smoke Signal generates a hard-to-miss cloud of dense orange smoke that draws immediate attention to your distress situation. It is USCG-approved as a daytime signal, and is manufactured marine-tough to withstand exceptional environmental exposure. This robust signal flare will even perform after total immersion in water. To activate, simply remove the cap at the base of the ergonomic protective handle and pull the wire igniter sharply. The protective handle and no-strike ignition provides for safer activation. Manufactured by the world leader in marine pyrotechnics, the Aurora Smoke Flare commands attention with its intense Orange smoke.

Features and Benefits:
• Dense USCG Approved Smoke
• During its 1-minute burn time, the Aurora smoke signal generates a highly visible cloud of dense orange smoke that draws immediate attention to your distress situation
• It is USCG approved as a daytime signal, and is manufactured marine-tough to withstand exceptional environmental exposure
• Marine Grade Quality
• Manufactured by the world leader in marine pyrotechnics
• The protective handle and no-strike ignition provides for safer activation

Specifications:
• Activation Manual: Pull Wire Igniter
• Weight: 6.13 oz. (175 g)
• USCG Approved: Yes

WARNINGS:
• Produces Red hot flame
• Do not fire in a contained space
• Only for emergency use at sea
• Do not dismantle
• Do not use after expiration date

STORAGE:
Should be stored in either a mini or large polybottle in a dry, easily accessed location at ambient temperature.

DISPOSAL:
Pyrotechnics must be treated as hazardous items and must be disposed of responsibly in accordance with local regulations.

Important Note: For pickup in our Connecticut Outlet Store only.

Bennett Media Modern Coastal Piloting
Whether you’re a powerboater or a sailor, it’s vitally important you know how to get where you’re going when you leave port.

This DVD shows you Coastal Piloting from theoretical concepts to practical execution using the latest electronic equipment as well as the traditional methods of charting using parallel rules and a hand bearing compass

This program is the simplest way to learn the piloting skills you need.

Subjects covered include:
• How to read a chart
• Measuring distance
• Plotting tools
• Ranges and bearings
• Radar plots
• Lines of position
• ISBN: 097278003918

Aurora Red Hand Flare – Personal Distress Flare
Designed to withstand exceptional environmental exposure and to perform reliably even after immersion in water, the Aurora hand flare produces a hot Red flame for 60 seconds at 15,000 candelas.

Unlike strike-to-start flares, the Aurora features a user-friendly pull-wire igniter. Simply unscrew the cap, grasp the protective handle and pull the wire lanyard sharply to ignite. The brilliant red flare burns at 15,000 candelas for 60 seconds (compare to other brands’ 700 candela). USCG-approved for day and night use, it’s a powerful shore-range distress signal that grabs the attention of rescuers and helps pinpoint your position. The ACR Aurora Hand Flare is manufactured by the world leader in marine pyrotechnics.

At 15,000 candelas, the Aurora Hand Flare burns 21 times brighter than the standard 700 candela flare. Unlike some flares, which emit dangerous sparks and ash, the Aurora’s unique design minimizes emission of smoldering debris. Safe handling and operation is further enhanced with an ergonomic protective handle. The marine grade construction is performance-designed to withstand exceptional environmental exposure, including total immersion in water. The Aurora’s compact design makes stowage easy, and is in a cost-efficient 3-packs.

MPowerd™ Luci® EMERG Portable Solar Lantern
Lantern, Flashlight, Emergency Light—All-in-one
With adjustable flashlight lighting and a high-visibility Red emergency S.O.S. flasher, Luci EMRG prepares you for everything that might come your way, from hurricanes and tornadoes to power outages and camping trips. Especially compact (weights 2.5 ounces), the Luci EMRG fits easily into any drawer, pocket, glovebox or toolbox.

Luci EMRG Features:
• 4 Settings: Bright, Super Bright, Flashing and S.O.S
• Functions as a second timer on flashing mode
• Lightweight and durable
• Compact and sustainable
• Waterproof and shatterproof
• Rechargeable battery included
• 1 Year warranty
• Lasts up to 10 years!
**Blue Sea Dual USB Charger Panel - 12 VDC**

Features:
- Blue Sea 1016200 12 Volt DC Dual USB Charger allows you to charge two mobile devices on the go
- Made with corrosion resistant materials which ensure a solid contact and low voltage drop
- Fits in same mounting hole as a traditional 12 Volt outlet
- Compatible with most mobile devices including Apple® products
- Protective dust cap with tether keeps dust and spray from shortening the life of the charger
- Conformal coated circuit board to stand up to the harsh marine environment
- Easy to install in existing 12 VDC socket hole providing convenient access for charging mobile devices

Specifications:
- Maximum output current: 2.1 Amp DC
- Cut out dimensions: 1-1/8" (28.58 mm) dia. hole
- Parasitic current draw: 15 mA DC
- Reverse polarity protection: Yes
- Short circuit protection: Yes
- Thermal overload protection: Yes

**Blue Sea Floyd Bell Turbo Series Alarm**

Features:
- Has an adjustable volume – adjusts by rotating the bezel
- Tamper resistant front mounting case
- Threaded attachment ring
- Fits any 1" round aperture

Specifications:
- Maximum Amperage: 10 A DC (plug), 15 A DC (socket)
- Nominal Voltage: 24 VDC
- Operating Voltage: 5-30 VDC
- Circular plasma engine

**Blue Sea ST-Blade Battery Terminal Mount Fuse Block**

Features:
- Easy to install (4) ATO®/ATC® fused circuits
- Mounts on the battery terminal stud
- Screw terminals for securing wires
- Nylon insulated ring terminals included for each screw terminal
- Insulating cover included
- Accepts small format circuit labels
- Includes (1) 15 Amp fuse

Specifications:
- Maximum Amperage: 100 Amp per block, 30 Amp per circuit
- Maximum Voltage: 32 Volt DC
- Mounting Clearance for 3/8" [M10] stud
- Screw Terminal Type: #8-32 Screws with captive star lock washer

**Blue Sea ST-Blade Battery Terminal Mount Fuse Block Kit**

The Blue Sea ST-Blade Battery Terminal Mount Fuse Block Kit lets you easily add (4) fused circuits to the terminal of a battery

Features:
- Provides power to accessories in your boat or vehicle.
- Mounts on the battery terminal stud
- Screw terminals for securing wires
- Nylon insulated ring terminals included for each screw terminal
- Accepts small format circuit labels
- Insulating cover meets ABYC/USCG insulation requirements
- Ignition Protected – meets ISO 8846 and SAE J1171 for use in a gasoline engine compartment

Includes:
- 4-Circuit negative busbar
- Write on labels
- (4) 16-14 AWG, (4) 12-10 AWG Nylon insulated ring terminals and (1) 15 amp fuse

Biobor MD® Diesel Fuel Additive

Biobor MD is an all-inclusive diesel performance treatment designed to boost engine performance and efficiency while protecting your diesel engine year-round. Fuel combustion qualities are increased, injectors are cleaned and lubricated, fuel is stabilized and corrosion is inhibited; all resulting in a cleaner, more efficient engine. Unique to Biobor MD, all the critical characteristics to improve performance and protect your diesel engine are included in one treatment, PLUS Biobor MD contains cold weather protection for year-round use with a single product! Works in conjunction with Biobor JF.

- Reduces soot up to 94%
- Increases cetane by up to 6 points
- Stabilizes diesel fuel for up to 2 years
- Prevents corrosion in fuel system
- Anti-gel and lower CPF
- Inhibits corrosion and restores lubricity in ULSD

Antal Snap Hook

- Can be easily “hooked” to a genoa or a spinnaker sheet
- The lightest and strongest solution for a line control
- Highly polished, hard Black anodized Aluminum
- Has a spliced Dyneema snap loop
- A safety spring prevents the line from going out
- Dyneema loop safety factor (breaking load/safe working load) = 3
- Spare Dyneema loops are available
- Antal offers a special pad-eye for Dyneema Loops (Pad Eye sold separately)

Antal Thin Solid Ring

- (4) different models with holes from 30 to 50 mm
- The simplest idea for maximum load and minimum weight
- Solid Ring has a thinner body than the Antal Ring and a wider hole with the same extreme working loads
- Outer groove is suitable for a hanging line
- Minimum friction
- Material: Highly polished, hard anodized aluminum body
- Color: Black
- Specifically designed for reefing and for 3D setting of the genoa sheet

Fusion Black Box Entertainment System with Wired Remote Display

The Fusion MS-BB300R marine black box entertainment system with wired remote display is a compact entertainment powerhouse, which is compatible with the world’s leading multi-function displays for intuitive True-Marine audio playback and easy, total control. This is a full featured entertainment solution that blends performance and subtlety.

Features:
- FUSION-Link NMEA 2000 connectivity
- Bluetooth audio streaming
- Expandable up to 3-Zones
- Apple & MTP Android/Windows Media playback
- Panel mount USB and 3.5mm auxiliary cable connection
- A2DP audio streaming with AVRCP
- Elegant solution for a limited space helm
- Thermal blended heat sink
- 3-Year limited consumer warranty

Specifications:
- Sources: AM/FM/SiriusXM-Ready/USB/AUX/iPod/iPhone/MTP/Bluetooth®
- Black Box Dimensions: Depth 2.63”, Width: 9.25”, Height 3.94”
- Remote Display Dimensions: Mounting Depth 3”, Width: 4-3/8”, Height 4-3/8”
- Output Power: 50 Watts x 4
- Operating Voltage: 10.8-16VDC
- Fuse Rating: 15 Amp
- Waterproof Rating: IPX3 when mounted on vertical surface
- The MS-BB300 is ready to connect to a SiriusXM Connect Tuner. The SiriusXM tuner and subscription are optional extras that must be purchased separately

In The Box:
- MS-BB300 Black box system, MS-NRX200i Wired remote control, Display dust cover, Hardware mounting kit, 6M NMEA 2000 backbone cable, NMEA 2000 T-connector, NMEA 2000 female terminator, NMEA 2000 in-line terminator, NMEA 2000 adaptor cable-CA3000068

KiwiGrip Non-Skid Deck System with Roller

KiwiGrip is a revolutionary, durable, non-skid coating that spreads quickly and easily with our proprietary roller, offering a beautiful, high traction surface.

By varying the application technique, the texture can be adjusted from a rolled “pleasure boat” texture to an industrial aggressive “work boat” texture. As a homogenous material KiwiGrip doesn’t suffer from the problems encountered with products filled with sand, walnut shells, beads, rubber flake, or other fillers. Coatings with fillers tend to wear through, and the fillers fall out leaving an unsafe deck that’s hard to clean and even harder to re-coat.

- Loaded with a UV stabilizer for consistent color
- Durable KiwiGrip is a very hard acrylic polymer providing a durable, homogeneous, elastic surface
- KiwiGrip will not wear through and expose filler materials
- Perfect texture apply over wood, fiberglass, epoxy, concrete or metal and dial in the perfect texture for your application by varying your technique
- Non-Toxic
- No volatile solvents, very low VOC
- Cleans up with soap and water

Please specify color: Blue, Cream, Gray, White

Gofree Lake Insight® and Nautic Insight® Cartography

The high-detailed, value-priced Lake Insight and Nautic Insight PRO – as well as the enhanced Lake Insight and Nautic Insight HD cartography packages – have been greatly improved for 2015. All are compatible with Insight Planner™ software in addition to select Lowrance, Simrad NS and B&G chartplotter models, including: HDS Gen2, HDS Gen2 Touch, HDS Gen3, Mark/Elite- HDI and CHIRP, NSS and NSS evo2, NSE, NSO and NSO evo2, Zeus, Zeus Touch and Zeus2.

Lakes Insight 2015 Features

- High-quality maps for the lower 48 United States including the Great Lakes
- Updated database of 9,000 lakes with depth contours, including 2,300 detailed charts with contours at 1-3’ intervals
- Lake Insight HD now includes an enhanced level of high-definition detail, which required the product to be divided into two geographical offerings: Lake Insight HD East and Lake Insight HD West
- Aerial imagery is embedded on Lake Insight HD mapping cards with the option to download imagery with an enhanced level of detail at no additional charge
- Micro SD Card

Nautic Insight 2015 Features

- Significant enhancements to shoreline detail
- Updated NOAA Electronics Navigation Charts and Marine Protected Areas
- Improved bathymetric and depth contour detail
- Updated Maptech and Fishing HotSpots® points-of-interest (POIs)
- 20 more zoom-in levels beyond standard Insight data preloaded on Lowrance, Simrad and B&G chartplotters
- Nautic Insight HD also includes Lake Insight HD inland detail within 100 miles of the coast – making it the most cost-effective option for coastal boaters

NEW! Blue Sea m-LVD Low Voltage Disconnect

Features:

- Senses low battery voltage and automatically disconnects devices to save power for starting or to preserve battery life
- Ideal for any single battery boat or vehicle that wants to avoid getting stranded with a dead battery
- Status light in both m-LVD and Remote Control Switch provides visual warning of low voltage state prior to disconnect
- Alarm output available for audible warning of low voltage state prior to disconnect (sold separately)

Remote Control Switch Functions:

- Disconnect voltage adjustment: Sets desired disconnect voltage
- Override: Temporarily delays circuit disconnect for 10 minutes

Specifications:

- Nominal Voltage: 12 Volt DC
- Amperage Operating Current: 95 mA (connected), 4 mA (open)
- Continuous Rating: 65 Amp
- Interrupter Rating: 115 Amp (5 Min)
- Maximum Cable Size: 1/0 AWG (50 mm2)
- Terminal Stud Size: 1/4” - 20 (M6) x 7/16” (11.11 mm)
- Terminal Stud Torque: 60 in-lb (6.78 Nm)
- Mounting Options: Rear, Front or Surface

Blue Sea WeatherDeck® Waterproof Switch Panel

Blue Sea WeatherDeck Switch Panels are waterproof and rated IP67 (for temporary immersion in water) and use materials that won’t deteriorate in the harsh sun, salt, and water. Many switch panels mounted on the dash or flybridge do not stand up to harsh marine environment. Many small boats, which already have circuit protection and do not run at night, simply need a switch panel which is waterproof.

The WeatherDeck Switch Panel has all the rugged features of the proven WeatherDeck Panel family but this economy model does not have the added cost of backlighting and circuit protection.

- Integrated switch guards reduce the risk of accidental switching
- Panels can be mounted in four different orientations
- Panel front rated IP67 when properly mounted with watertight mounting gasket
- UV stabilized weather-resistant faceplate snaps on and off providing access to components and concealing mounting screws

Specifications:

- Weatherproof and Waterproof (IP67)
- Nominal Voltage: 12 VDC / 24 VDC
- Circuit Protection: None
- Max. Amperage: 15 A @ 12 VDC (per circuit)
- Panel Cumulative Rating: 45 Amp
- Material: Reinforced Polycarbonate

Package Includes:

(1) 4215 Waterproof DC Label Kit with (30) Black Square Labels
(4) 4138 WeatherDeck Toggle Switch Boots (Black)
(4) 4150 WeatherDeck Toggle Switches (SPST - ON-OFF)

Note: The pairing of the new WeatherDeck Switch Only Panel and the ST Blade Fuse Block with Ground (sold separately) is ideal for small runabouts and RIBS. These boats often require the waterproof switching of the WeatherDeck Panel, do not require backlighting, and are operated only during daylight hours. Using an ST Blade Fuse Block allows consolidation of all of the boat’s circuit protection in a dry and protected environment.

Aqua Signal Bergen LED Compact Deck/Floodlight

- Designed and engineered as the brightest and most durable LED deck light in the industry
- Built to perform in the most extreme environments
- Advanced heat management system self regulates temperature and assures long lasting performance
  - Rear cooling elements that actually provide excellent cooling even when surface mounted
- Powder coated aluminum housing for maximum resistance to corrosion, chemicals, UV damage and seawater resistant
- Low profile (1/2”) makes mounting possible almost anywhere, can even be surface mounted eliminating hole cuts for recessing
- Includes optional 316 Stainless Steel adjustable bracket
- Waterproof with IP67 rating
- EMC tested and certified at professional test center
- 10 W LED’s produce 1200 lumens light output, more light than a typical 50 W incandescent
- Supplied with 59” (1.5 m) cable
- Multi-Volt from 10-30 VDC
- Low amp draw: 1.14 A @ 24 VDC 0.54 A @ 12 VDC
- Backed by a 5 year limited warranty
- Applications:
  - Illuminating your boat’s exterior, as a deck light or cockpit light
  - Great solution to any size boat
  - Mounting on T-tops, hard tops, masts, or booms
  - Makes a great engine room light

Dr. LED Mars Dome Light With Switch

- Features:
  - General purpose surface-mount bi-color (Warm White/Red) LED light for night use
  - Three-position switch (Red/Off/Warm White) to select Red or Warm White light
  - Internal circuitry provides for consistent energy consumption regardless of source voltage fluctuations – no flickering and longer LED life
  - Long service life, shockproof and ultra-rugged with no filament to break or burn out
  - Lead and mercury-free with no UV output
- Specifications:
  - Light Color: Warm White (3000 K)/Red
  - Luminous Flux (Lumens): 250 lm (Warm White)/40 lm (Red)
  - Mount: Surface
  - Bezel: ABS plastic (finish: Brass)
  - Lens: Polycarbonate
  - Operating Voltage: 12/24 VDC
  - Power Consumption: 2 W(Red)/5 W (White) @ 12 VDC

Dr. LED Kevin X4 LED Spreader/Spot Light

- High-power LED spreader/deck/rail/spot light
- Designed to be mounted up to 30’ above deck with aerodynamic shape
- Replaces 50 W halogen spotlight
- High-purity die cast aluminum housing and lens bezel provide ample heat sinking and ingress protection to ensure long service life
- Marine-grade 3-stage durable UV 3800 powder-coated finish
- Highly shock and vibration resistant
- Marine-grade LEDs rated at 50,000 hours of service life
- NMMA, USCG, ISO & SAE Ignition Protection Compliant
- Specifications:
  - Dr. LED Model No. 8001993
  - Light Color: Cool White (6000 K)/Red
  - Luminous Flux (Lumens): 1380 lm
  - Mount: Surface (low-profile Stainless Steel U-bracket mount with 1/4” bolt)
  - Housing Material: ADC12 high-purity aluminum
  - Housing Finish: 3-stage durable UV 3800 powdercoat (color: Black)
  - Lens: Polycarbonate
  - Operating Voltage: 9 - 35 VDC or 12 VAC (1.5A @ 12VDC)
  - Power Consumption: 20 W max.
  - Ingress Protection: IP 68 (Dustproof/suitable for continuous immersion in water)

Raymarine eS Series High Performance Multifunction Displays
Raymarine is pleased to announce the launch of the new Raymarine eS Series line of HybridTouch™ multifunction displays. Powered by Raymarine's advanced LightHouse II user interface, the eS Series includes three high-performance navigation displays that offer unprecedented control and ease-of-use in a sleek, ergonomic design. The eS Series features a choice of 7”, 9” and 12” displays, each with an attractive, glass bridge-style design that blends seamlessly with today’s modern helm stations, allowing for both low profile console and a completely recessed flush mounting option.

Key eS Series Features:
• Super bright displays (1250 nits) with optical bonding technology for sharper colors and contrast
• HybridTouch™ - Responsive touch screen control with pinch to zoom or simple keypad interaction using the new multifunction rotary control and keypad
• Three mounting options (bracket, surface, or fully recessed flush)
• Powered by LightHouse II operating system
• Easy-to-use, easy-to-customize, and easy-to-expand (Network eS Series with any LightHouse II powered display)
• Engineered for the future with regular LightHouse updates and enhancements
• Access your eS Series from anywhere on board. Built in Wi-Fi allows you to stream to Raymarine mobile apps and sync with the Navionics Boating app.
• Freedom to choose the very best charts from C-MAP by Jeppesen, Navionics, and Raymarine's expanding LightHouse chart catalog
• Navionics Auto Routing using Navionics + or Navionics Platinum charts and support for Jeppesen Easy Routing using C-MAP 4D MAX+ charts
• Fast 10 Hz GPS/GLONASS internal receiver for rapid chart position updates and faster satellite acquisition
• Available wide spectrum CHIRP DownVision™ on eS75, eS97 and eS128 models and ClearPulse™ Digital sonar on eS77, eS97 and eS127 models
• High performance side scanning sonar using the optional CP200 CHIRP SideVision™ sonar
• Sonar Command Center - view up to 4 independent sonar channels simultaneously, including the CP370 Digital and CP470 and CP570 CHIRP Sonars
• Monitor and record onboard video with support for up to 10 video over IP cameras like the Raymarine CAM200IP
• Network with Raymarine Digital, HD Color and Super HD Color radar systems
• Best-in-class automatic Bird Mode for finding flocks of birds above schools of fish (HD radar only)
• Navigate safer at night with optional thermal night vision cameras and slew-to-cue target tracking
• Engage and control Raymarine Evolution autopilots directly from the eS Series chartplotter display

Sirius Signal SOS Distress Light with Distress Flag

Powered by a high-performance, programmable microprocessor controlling an SOS signal flashed through a potent CREE LED bulb, the Sirius Signal SOS C-1001 model is both family safe and easy to use. The groundbreaking optical design provides an omnidirectional light display for surface rescue craft and a vertical beam visible to aircraft flying overhead. Visible for over 10 nautical miles, the SOS C-1001’s beam lasts for hours compared to the minutes-long lifespan of traditional pyrotechnic distress. Fulfills all Coast Guard requirements (46 CFR 161.013) for marine distress signals when combined with our included Distress Flag. Made in the USA. (complies with the “Buy American Act,” may contain imported components).

SAFER THAN FLARES. SAFE FOR THE ENVIRONMENT.

The SOS Distress Light is the first and only LED Visual Distress Signal Device accepted to completely replace dangerous and environmentally harmful pyrotechnic flares.

- Complies with all U.S. Coast Guard requirements for “Night Visual Distress Signals” 46 CFR 161.013
- When combined with the included daytime distress signal flag, meets all USCG Federal Requirements for carriage of DAY and NIGHT VDS.
- Designed, engineered, patented, and produced in the USA

FEATURES AND BENEFITS

- ONE TIME PURCHASE — no expiry date so no disposal is needed
- Family SAFE
- SIMPLE on/off switch
- Visible for over 10 nautical miles
- Environmentally safe
- Battery-operated (1 C battery included) buoyant, and lightweight SOS Distress Light, can be hand-held, tethered, or hoisted aloft. Lasts HOURS compared to flares, which last minutes, or flare gun meteors, which last mere seconds.

DISTRESS FLAG

The Coast Guard-Compliant Orange Distress Flag fulfills the legal requirement for “Day Visual Distress Signal for Boats” (46 CFR 160.072). The black square and black circle pattern on this orange 36” x 36” Distress Flag has proven to be a literal lifesaver in countless daytime aerial searches. Made from a durable orange plastic with brass grommets in each corner, the distress flag, when paired with the SOS C-1001 visual distress signal, meets USCG Federal Requirements for carriage of day and night visual distress signals. Includes cord for attachment.

Maptech Embassy Cruising Guide: New England Coast includes detailed listings for more than (900) marinas divided into (15) cruising regions and includes hundreds of GPS waypoints, full-color aerial photos, local navigation advice, and visitor’s tips for popular destinations along the New England Coast

Covered Areas:

- Block Island
- Rhode Island to the Canadian Border

Embassy Guides General Features:

- Maptech Embassy Guides are the perfect navigation companion when you’re planning your trip and underway
- They’re packed with marinas, local navigation advice, and aerial photos and hundreds of GPS waypoints
- Aerial Photos and Pictures Bird’s-eye Aerial Photos of harbor entrances improve your situational awareness during approaches
- Beautiful pictures highlight local landmarks and the vistas you may see while underway or at anchor
- They’re filled with detailed navigation advice and are an enjoyable read
- Maptech offers guides covering the East Coast of the U.S. from Maine to Florida plus the Bahamas and Alabama
- Designed for ease of use
- Find the information you need quickly
- Harbors are indexed by chapters
- Marina and facility locations cross-reference quickly with harbor chart segments
- The crash-proof spiral binding and wrap-around covers are designed for easy page turning and bookmarking
- “Local Knowledge” The writers and editors have traveled everywhere they write about
- Detailed navigation advice will help you approach new harbors as if you’re a local
- Complete Marina Information
  - Marine facilities tables display key information that allows you to find the “right” facility quickly
  - Facility tables are cross-referenced to harbor chart segments so you can locate the facility easily
  - Harbor Chart Segments
    - Full-color harbor chart segments show marina approaches and display the locations of facilities in relationship to each other
