OUR STORY

SINCE 1959

Since 1959, **Avon Inflatables Limited** has produced over 200,000 tenders and rigid inflatable boats (RIB). Recognized as a pioneer and a world leader, **Avon** has an excellent reputation for design, performance and exceptional product quality.

Created in Bradford on **Avon**, **Avon Inflatables** moved to Dafen near the town of Llanelli, South Wales, UK in the early 1960's.

In 1998 the company was purchased by Zodiac, the world's largest manufacturer of inflatable boats. The partnership with Zodiac has allowed for both companies to flourish as

they were able to combine resources to develop premium products and shared technologies such as removable tubes.

Avon is now proudly manufacturing RIB's in the USA.

Avon products are available globally from an international dealer network of distributors and agents, and are serviced by a comprehensive network of locally convenient service stations that provide expert after sales support for our customers. Nearly 60 years of experience producing first-class hand-built products has led to **Avon** to be recognized as the most premium inflatable product on the market.

THE AVON® SEASPORT SERIES HAS BEEN SPECIFICALLY
DESIGNED TO COMPLEMENT YOUR YACHT.

Avon Inflatables Limited, a Zodiac-Nautic group brand, proudly announces the **Seasport Deluxe** tender range. The **Avon Seasport Deluxe** replaces the Zodiac Yachtline Deluxe tender range as part of a program of continued improvement. **Avon Seaports** will benefit from the Zodiac Yachtline's years of refinement and will allow the Zodiac Nautic Group to more closely focus on the needs of our customers.

The **Avon® Seasport** focuses on convenience. The teak bow step and rear wing steps aid in hassle free boarding.

In order to occupy as little space as possible on your yacht, **Avon** features a compact lightweight design that does not compromise interior seating. All models feature comfortable ergonomic seating for all passengers.

However, interior seating was not compromised in the **Seasport** series, and every **Seasport** features comfortable seating for all passengers. Conveniently located spacious lockers provide plentiful storage.

The three tube colors (grey, camel and marine blue) provide the opportunity to harmonize your tender with your yacht. These new tubes are made of Hypalon™ Neoprene™ fabric, which provides better resistance to UV radiation and abrasion. In addition, tubes are easily removed for maintenance and repair.

Aside from use as a tender, the **Seasport** can also adapt to your recreational activities (waterskiing, tubing, etc.). **Seasports** feature great sea-keeping ability and plane quickly as a result of their patented Zodiac integrated trim tabs.

KEY FEATURES

- Teak covered bow step complete with LED lights provide safe boarding at the bow
- Teak covered lateral steps provide safe boarding at the stern of the boat
- Trim tabs facilitate quick planning of the boat
- Removable Hypalon™ Neoprene™ buoyancy tubes
- Internal fuel tank
- Easy access to storage locker
- New tube design with three color options

- 12-Volt plug (490)
- Battery switch
- Battery box
- Automatic bilge pump
- 2 paddles
- Foot pump
- Pressure gauge
- Repair kit
- Owner's manual

GRAND TENDER 850

ELEGANCE - INNOVATION

THE RESULT OF A LONG INNOVATION EFFORT MADE ALONGSIDE
YACHT CAPTAINS TO BETTER ADDRESS THE NEED FOR SIMPLICITY
OF THE LUXURY BOATER

This elegant boat, faithful to the British brand's iconic design, is the result of a long innovation effort made alongside yacht captains to better address the need for simplicity of the luxury boater.

To improve security and convenience on its boats, **Avon Marine** have developed new connected technologies*, including a keyless smartlock that lets you start your boat with your fingerprint, smartphone or contactless card ; a virtual key system that lets you send temporary access to your boat from a distance, and Bluetooth Security bracelets for passengers that will instantly stop the engine and

propeller in case of emergency. The **Avon Grand Tender 850** is the first boat to benefit from these digital innovations.

Leading the boating industry in the Internet of Things (IoT) movement, the **Grand Tender 850** allows its owner to track the boat's activity online and in real time (geolocation, average speed, engine use), and receive alerts in case of an intrusion, theft hazard or unauthorized use (Geofencing).

The **Avon Grand Tender 850**, that is fully customizable, marks the return of the iconic brand Avon to the luxury RIB tender market.

*Subject to availability

KEY FEATURES NEW TECHNOLOGIES

- Keyless smartlock that lets you start your boat with your fingerprint, smartphone or contactless card
- A virtual key system that lets you send temporary access to your boat from a distance
