
Precision Contour HD
The Ultimate Inland Fishing Map

- Survey quality Contour Data - 1-foot contour coverage, visible even at wide zoom levels
- Custom depth shading – choose colors for specific depth ranges to highlight fishing-holding depths and/or hazard zones
- Points of Interest - includes traditional navigation information, C-MAP Navigation data, plus Fishing HotSpots waypoints and lakes-specific fishing tips and techniques
- High-Resolution Satellite Imagery – used to locate man-made fish-holding structures like boat docks. Available views include water and land, water only and land only.
- Preset Depth Shading Palettes, including Safety Shading
- Includes fishing regulations, records and ID photos
