

True North™

True North™ AC Electric Space Heater

This rugged electric heater has a solid steel housing with built-in adjustable thermostat that keeps the cabin warm on the chilliest of nights. The True North heater is equipped with 5 settings including steady heat to high output for maximum heat and air circulation. The Anti-Freeze setting is a great winter storage solution that automatically turns on when the weather drops to 38°F (3°C), ensuring the air temperature in the cabin remains above the freezing point. Low profile design prevents tip over and makes it easy to store when not in use.

Product dimensions: 9.4" L x 11.0" W x 5.0" H **Materials:** Steel and plastic
Safety features: 2 stage overheat protection
Warranty: 5 years

Power Supply	Power	BTUs	Draw	Colour	Model
120V AC, 60Hz	600W, 900W, 1500W	5200	5.0A-13.00A	Black	9206CABBX

Stor-Dry™ Warm Air Circulator

The Stor-Dry low wattage warm air circulator is a "must have" for the winterization season. The Stor-Dry combats mold, mildew and musty odor in any boat or RV. This dual action air circulator uses a low wattage heating element and internal fan to both warm and circulate the air in order to minimize moisture condensation and prevent mold or mildew from forming. Ideal for spaces up to 1000ft³.

Product dimensions: 10.1" L x 10.1" W x 4.5" H **Materials:** Aluminum
Warranty: 2 years

120V AC, 60Hz	70W	256	Silver	9406CAABX

Stor-Dry™

Pali™

Pali™ 400W Engine Compartment Heater

Extend the boating season and protect your engine against surprise cold snaps. The Pali uses a self-regulating PTC heating element that cannot overheat. It meets all ignition protection guidelines and standards (USCG, UL-1500) to allow it to be safely used in the engine compartment. The Pali™ uses an internal hermetically sealed thermostat to turn the heater on at 41°F (5°C) and off before 60°F (15°C) and is designed to heat engine compartments up to 80ft³.

Product dimensions: 5.0" L x 9.0" W x 5.6" H **Material:** Stainless Steel, fire retardant ABS/PVC blend & PPS plastic
Cord: 20' oil & weather resistant heater grade cord/grounded plug
Output Heating Power: 400 Watts

Power supply	Power	BTUs	Draw	Colour	Model
120V AC, 60Hz	400W	1365	Run: 3.30A	Black	9510CABBX

Fairview™ 12 Volt Defogger

Boaters can defog their windshield in just minutes using the Fairview 12 Volt defogger. It is easy to install with either a sure-grip suction cup enabling the defogger to be easily removed and stowed when not in use or a permanent screw-down base and a standard lighter plug. The genuine PTC ceramic element generates 340 BTUs of heat to quickly defog your windshield. The compact heater takes up little space on the dash.

Product dimensions: 2.5" L x 6.7" W x 4.7" H **Materials:** Fire retardant ABS Plastic
Warranty: 1 year

Island Fairview™

About Caframo

Caframo is a privately owned Canadian manufacturing company founded in 1955. We pride ourselves in being an industry leader in specialty fan products for North America and International markets. Our fans are sought after all over the world.

Caframo Marine & RV products have been designed, tested and built for demanding recreational use. Our line of Marine & RV products improves one's personal environment and allows them to "Cruise in Comfort". The comfort provided by our products means you can get even more out of your season with fans for hot humid months and heaters and warm air circulators for the cool months.

Headquartered in Wiarton Ontario, our product development includes in-depth market research, customer feedback, award-winning product design and engineering, marketing and rigorous testing. With locally and internationally sourced parts, our products are built to go over and above the appropriate global safety standards.

We are committed to high product quality and excellent customer service and look forward to working with you.

Designed, Tested, and Built for Demanding Marine and RV Use

FingerSafe™ Blades

Many of our fans feature our patented FingerSafe™ Blade which does not require a protective grill. The blade has a shock absorbing leading edge that flexes when it is stopped. These blades are able to push more air quietly.

Salt Water Test

Our salt water test is conducted in a 2 cubic meter enclosed chamber. A salt water solution is then ultrasonically introduced into the chamber to simulate seaside conditions. The fans are then operated and monitored within the chamber 24/7.

Slam Test

In order to simulate the effect of pounding waves or bumps on the road on our fans, they are subjected to a slam test. Fans are tested in a slam load testing device where they are repeatedly dropped on a firm surface at over 10G's of force.

Premium Fans and Heaters

JOI®™

JOI™ Candle Powered Lamp

The JOI lamp is an ingenious candle powered lamp that uses a single tea light candle to power eight LED lights. It creates its own light without batteries, solar, or electrical cords and is 100X brighter than the tea light itself. The JOI lamp is ideal for indoor and outdoor use at home, cottage, chalet, cabin, RVs and off-grid. The adjustable light can be raised and angled to provide light on a patio table, beside a lounge chair for reading, at dockside, or to create the perfect ambience.

JOI™ Premium Tea Light Candles

Product dimensions: 6.8" L x 6.8" W x 8.0" H
Material: Stainless Steel

Model: 8310CASBX

Warranty: 1 year

Chinook™ 2 Speed Electric Fan

Powerful cooling with low power draw makes the Chinook extremely energy efficient. Manufactured without a grill, the Chinook comes with a FingerSafe™ blade that provides maximum airflow which helps to keep you cool.

Product dimensions: 7.4" L x 6.2" W x 8.7" H
Blade: 7.0" PE Plastic
Speeds: 2
Airflow: CFM: 120 - 162

Power Supply Draw
120V AC 0.35A

Materials: ABS Plastic
Safety features: FingerSafe™ blades
Warranty: 2 years

Minimax™

Minimax™ Portable Battery Fan

Energy efficient, compact and powerful. The Minimax fan is a favorite for hurricane preparedness because of its powerful airflow and efficient battery use. It is ideal for added circulation without having to wire into a 12 volt system. The battery-friendly Minimax can run for up to 300 hours on 4 'D' cells. The FingerSafe™ blade and grill-free design means greater airflow and greater comfort.

Product dimensions: 5.5" L x 5.5" W x 6.2" H
Blade: 4.5", PE Plastic
Speeds: Variable
Adapter: Available

Power Supply
4 'D' cell batteries

Materials: ABS Plastic
Safety features: FingerSafe™ blades
Warranty: 1 year

Tiny Tornado II™ Handheld Battery Fan

Cool comfort wherever you are. The Tiny Tornado II is a premium, battery-powered portable fan. The suction cup base attaches securely to any smooth surface and an adjustable tilting head directs airflow wherever it is needed. The compact design with a clip makes this fan the ideal travel companion. The fan operates continuously for 24 hours on the power of just one 'D' cell battery.

Product dimensions: 2.7" L x 4.5" W x 7.5" H
Blade: 4.5", PE Plastic
Speeds: 1

Power Supply
1 'D' cell battery

Materials: ABS Plastic + TPV Santoprene
Safety features: FingerSafe™ blades
Warranty: 1 year

Sirocco II™

Sirocco II™ 12/24 Volt 360° Fan

The original Sirocco cabin fan introduced the world to a unique gimbal design allowing for 360° directional airflow. Building on the popularity of the original Sirocco, the next generation Sirocco II offers increased durability, 12/24 auto-sensing capability, improved control layout, increased timer settings, and is now made in Canada. The Sirocco II is truly the next step in cabin comfort.

Sirocco II™ ELITE 12/24 Volt 360° Premium Fan

Coming Soon, Sirocco II Elite premium marine fan! In addition to all of the improved features of the Sirocco II, the Elite model will offer enhanced features such as a long life brushless motor, an additional speed setting with greater airflow and 4 year warranty. Watch for it in 2017.

Product dimensions: 3.9" L x 9.5" W x 12.2" H

Kona™

Kona™ 12 and 24 Volt Weatherproof Fan

The only weatherproof fan on the market! The Kona is a powerful, low draw, weatherproof fan designed for exterior use in demanding marine conditions. Featuring a watertight motor and constructed of extruded aluminum, UV stabilized plastic and stainless steel fasteners, the Kona is ideal for the wheelhouse, dash, an exposed bridge or cockpit where splash and spray would spell disaster for other fans. Two options for mounting: a cam-lock suction cup for portable use and a bracket for permanent mounting.

Product dimensions: 7.7" L x 7.7" W x 9.3" H

Blade: 6.2", Weatherproof ASA Plastic

Speeds: 3

Ultimate™

Ultimate™ High Airflow 12 and 24 Volt DC Cabin Fan

The quiet and compact Ultimate provides airflow equal to much larger fans and yet it draws less than an amp. The grill-free fan has a shock absorbing FingerSafe™ blade that makes it whisper quiet. The 757 Ultimate is equipped with permanent screw-down mount and directly wires to the boats electrical system. The 747 Ultimate comes with a suction cup mount that enables the fan to be moved about the boat. Includes a 6' cord with lighter plug. An optional clothespin-style clamp allows for additional positioning.

Product dimensions: 6.1" L x 7.0" W x 6.2" H

Blade: 7.0" PE Plastic

Speeds: 2
