

Exhaust Component Worksheet – Generator

1. Generator Manufacturer: _____
2. Generator Model Number: _____
3. Power – either HP or kW: _____
4. RPM: _____
5. Raw Water Flow Rate: _____
6. Exhaust Outlet Size (either mixing elbow or exhaust outlet tube): _____
7. Maximum Allowable Exhaust Backpressure: _____
8. Exhaust Flow Rate: _____
9. Exhaust Gas Temperature: _____
10. Generator Location in Relation to Waterline – Check one: Above Below
11. Do You Want a Gas / Water Separation System – Check one: Yes No
12. If yes, Gas Discharge Must Be Above Waterline
Desired Location of Water Discharge – Check one: Above Below
13. Are Drawings Available – Check one: Yes No
14. If Drawings are Available, what format? – Check one: CAD IGES PDF
 Hand drawn Other: _____
15. Dimension of Area Allocated for Exhaust Components: _____
16. Desired Finish – Check one: Unpainted fiberglass White Black
 White Gelcoat Yacht Quality Finish White
