

*In case you have not considered this purchase option:*

The following model includes  
a 915 wh battery:

Ultralight 403C - Defender item #[458019](#)  
Ultralight 403AC - Defender item #[458276](#)

Also available is this model,  
which includes a 320 wh battery:

Ultralight 403 - Defender item #[456878](#)  
Ultralight 403A - Defender item #[458275](#)

*Sales indicate that 75% of Torqeedo Owners either buy a spare battery with their initial purchase or, at a later date, they realize the benefit of having a spare and purchase one.*

*If you think you might be one of the 75% group of Owners, who have a spare battery, then you can purchase the 403 version with the 320 wh battery and purchase a 915 wh battery [Defender item #[457354](#)]. Use the 915 watt as the primary for the motor and the 320 wh as a spare.*

*In doing so, you will spend less money than buying a 403C with the 915 watt battery and adding a second 320 watt battery as the spare.*
